

# lecterns

ServicePack has available four models of lecterns:

1. Acrylic crystal lectern (10/12mm) for one speaker;
2. Acrylic crystal lectern (10/12mm) for two speakers;
3. Wooden white lectern for one speaker.
4. Woden white digital lectern for one speaker.

Our lecterns allow a stable placement of laptops, microphones and other useful accessories for presentations.

Acrylic lecterns can be decorated and customized with prints containing the event image or other relevant information.

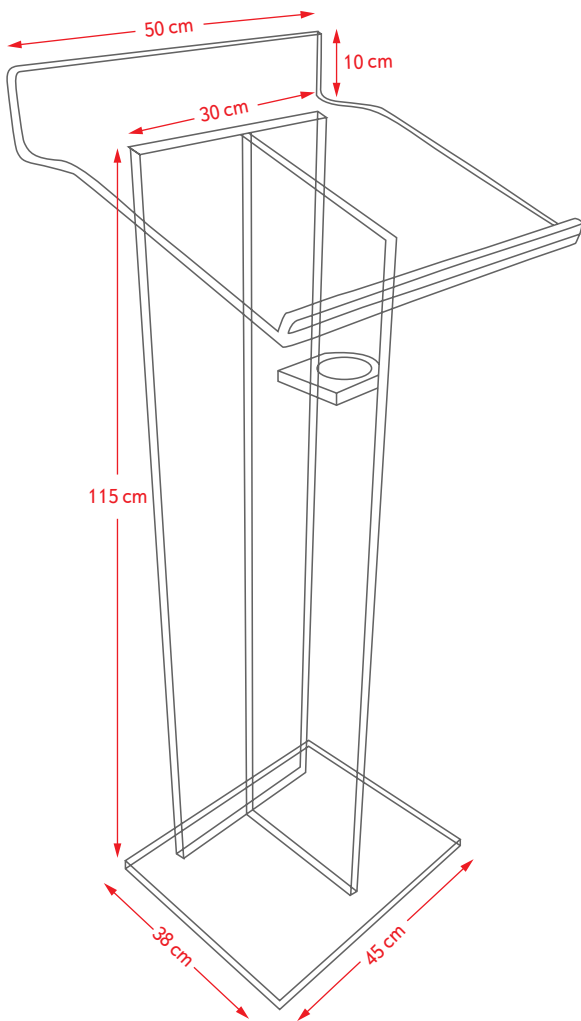

The most innovative solution is the use of the digital lectern, which contains a 49" screen, embedded vertically at its front, allowing the display of relevant contents to the audience while the speaker makes his presentation.

The name of the speaker, a video, animations or a slideshow of images are examples of the possibilities that this solution has to offer.

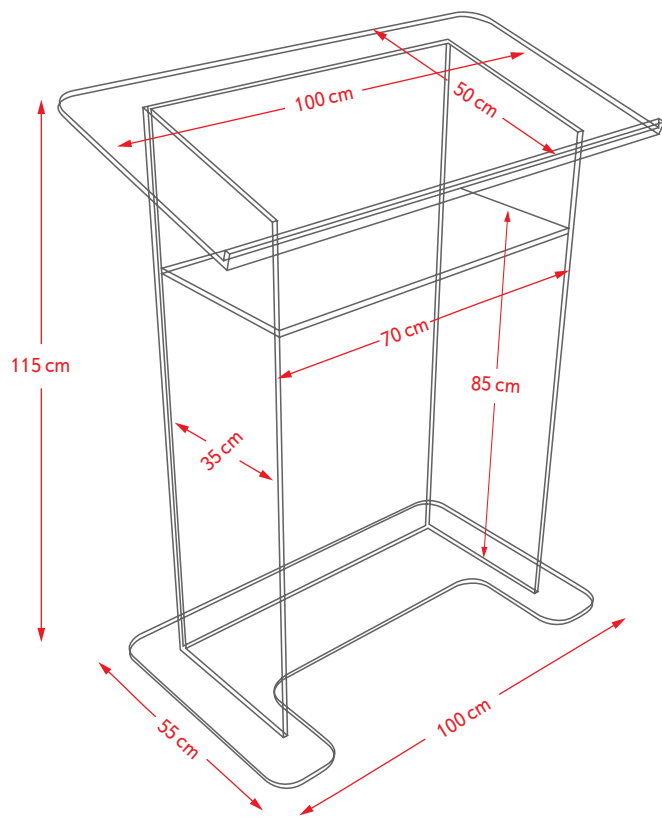

## Acrylic Lectern (single) designed for 1 speaker

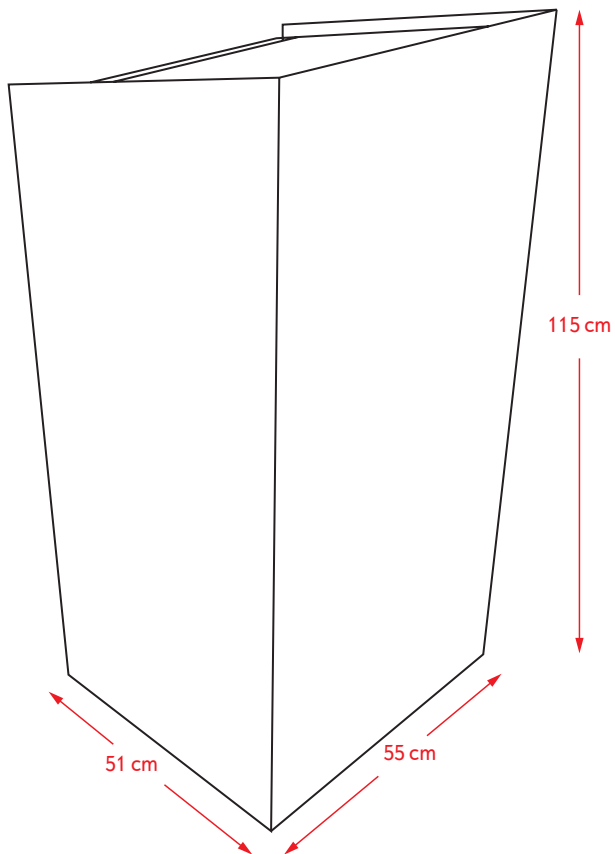

## Acrylic Lectern (double)

designed for 2 speakers

## White Wooden Lectern designed for 1 speaker
